

# ID by Pi

The new way to prove your identity

Reduce fraud, create trust, and determine if an ID is authentic and belongs to the user.

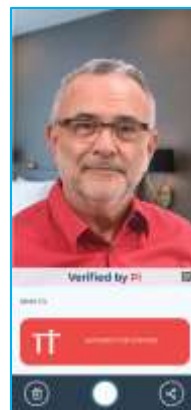

# How It Works

*Smart, Easy, Fast...*

## Register

Add your phone number so we know you're in control of your phone. Set a 4 digit PIN to keep people out of your account.

## Prove it's you

Take a quick selfie of your face to prove you're a real person.

## Add your documents

Scan your ID document  
Your details are encrypted into unreadable data that only you can unlock.

# ID Verification

Make sure that the ID is authentic, valid and belongs to the user.

- ✔ Error-tolerant image capture
- ✔ Simple user experience
- ✔ Know the forgery ID
- ✔ Fast, secure and reliable

**NAME and AGE**

**DATE OF EXPIRY**

**FONT and LAYOUT**

**IMAGE**

Compare ID photo with selfie

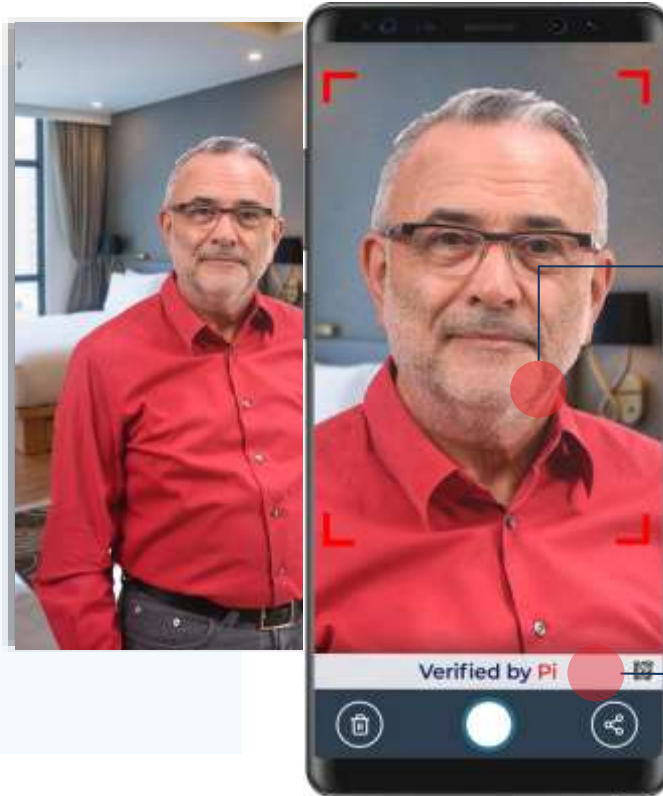

**MIKROPRINT**

All information about the ID

# Person Verification

## Know the True Identity of Your Customers

- ✔ Compare government-issued ID to selfie
- ✔ Simple user experience
- ✔ Real-time identity verification
- ✔ Security and Trust

**NAME AND SURNAME**  
**ADDRESS**  
**GEOLOCATION**  
**PHONE NUMBER**  
**BRAND OF PHONE**

**Photo is true** ✔

A symbol reveals whether the photo is real or fake.

# Identity Verification Made Easy

## Onboard verified customers, instantly:

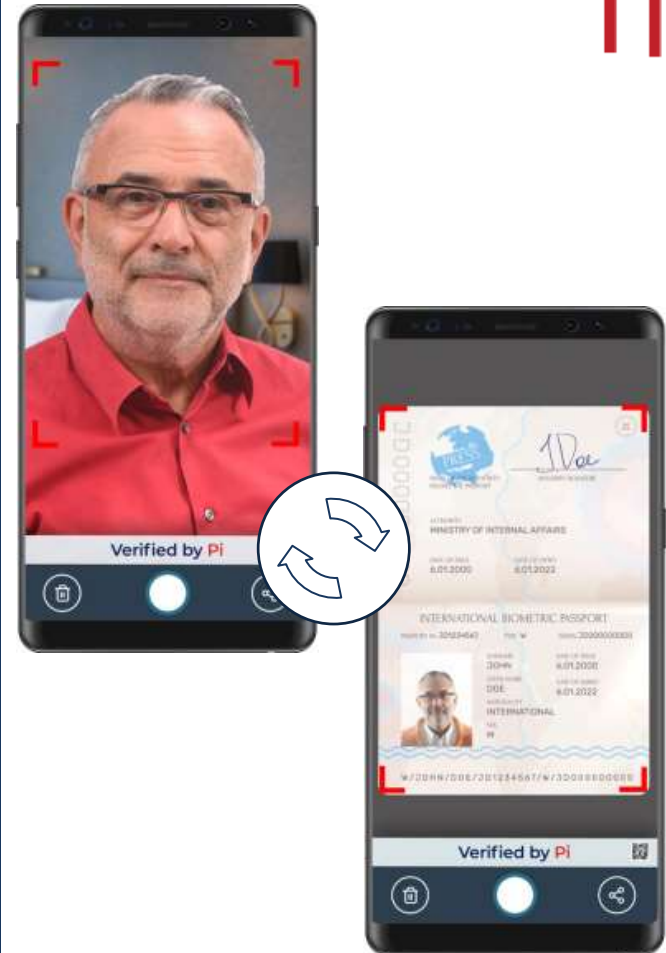

- ✔ Name, Address, Age, Gender
- ✔ Geolocation
- ✔ Proof of address
- ✔ ID Document Validation
- ✔ Fraud rules
- ✔ PEP (politically exposed person) screening
- ✔ Sanctions screening
